NATURAL RELIEF FROM THE GROUND UP

Orthaheel® technology is shown to reduce over-pronation, which can help improve foot function and relieve associated heel and ankle pain.

"It is my experience as a Podiatrist that many common aches and pains occur from poor lower limb alignment. Pain relief can be natural and affordable for everyone."

Phillip J. Vasyli,

Podiatrist - Chairman VASYLI International and creator of Orthaheel.

IDEAL FOR

**DR. WEIL
Recommends**

Proper foot care promotes optimum health from the ground up.
